Elections

ELLECT Policy Lelystad

- Poverty Policy** Combating poverty is a prerequisite for a strong city. ELLECT focuses on:
 - Accessible support through a single, easily recognizable point of contact for income and debt assistance.
 - Early detection in collaboration with schools, general practitioners, and neighborhood teams.
 - Opportunistic youth through free access to sports, cultural activities, and school activities for low-income families.
 - Work & Income: job guidance, training programs, and local internships.
- Healthcare** Every resident of Lelystad deserves accessible and preventive care.
 - Neighborhood-based care centers for rapid help close to home.
 - Mental health: extra attention for young people, caregivers, and the elderly.
 - Vitality: healthy neighborhoods with exercise programs, smoke-free zones, and support for healthy eating.
 - Strong collaboration with general practitioners, the Municipal Health Service (GGD), schools, and welfare organizations.
- Housing** Affordable, safe housing is a basic right.
 - Acceleration of housing construction, with a focus on first-time buyers, families, and middle-income earners.
 - Affordable rent and purchase through an active land and development strategy.
 - Making existing homes more sustainable with support for low-income earners.
 - Future-proof housing through lifelong homes and green, livable neighborhoods.
- Social & Cultural Development** Society is built on neighborhoods and connections. That's why ELLECT invests in:
 - Strong community centers as places for meeting, education, and initiatives.
 - Culture & talent through support for associations, youth programs, music, and sports.
 - Inclusion: connecting cultures and generations.
 - Youth opportunities through talent development and practical learning pathways.
- Energy & Sustainability** Sustainability must be affordable and feasible.
 - Energy conservation through insulation and solar panel programs, with support for low-income earners.
 - Collective energy projects to reduce housing costs.
 - Green cities with trees, nature-friendly parks, and water retention to protect against heat and rainfall.
 - Clean future through smart mobility and circular initiatives.

ELLECT policy Amsterdam Zuidas Buitenveldert and Zuidas will become one strong, accessible zone.

- Improved routes, crossings, and mobility.**
- Living & Greening** More affordable housing and an acceleration in insulation, solar panels, and clean energy. Worry-free living, with an eye to the future.
- Livable Zuidas** More greenery, culture, and amenities. A vibrant neighborhood where living, working, and relaxing are in balance.
- Strong position for seniors** Safe housing, good care, and meeting places. ELLECT keeps seniors active, independent, and connected.
- Sustainability at every level** From climate adaptation to circular waste: the entire district will become cleaner, smarter, and greener.
- Democracy that works** Residents will have real influence. Transparent choices, accessible participation, and clear decision-making.
- Equal opportunities for everyone** A good start for young people, job opportunities, and debt assistance. ELLECT brings together education, businesses, and neighborhood teams.
- Neighborhood budgets that make a difference** Every neighborhood receives direct resources to realize its own ideas. Fewer rules, more initiative.
- Smart event management** Vibrant events, without disruption. Clear agreements, good distribution, and fast complaint handling. Progress with energy. For a fair, livable, and future-proof Buitenveldert & Zuidas.

ELLECT policy Amsterdam Southeast

- Poverty Goal:** Reducing poverty and increasing social security for all Amsterdam residents. Policy points:
 - Automatic allocation of entitlements: Automatically awarding benefits, allowances, and debt waivers where possible (e.g., City Pass, energy allowance).
 - Deepening minimum income schemes: Increasing the municipal supplementary benefit, expanding child benefits, and providing free school meals at more schools.
 - Debt management: Faster debt counseling (starting within 3 weeks), expanding the Youth Perspective Fund, and

providing debt relief from day one. • Accessible support in neighborhoods: Strengthening neighborhood teams and increasing consultation hours at schools, community centers, and libraries. • Food security: Structural support for food banks and neighborhood meals.

2. Employment, participation, and income Goal: More Amsterdam residents with sustainable employment and a stable income. Policy points: • Job guarantee for young people: Intensive guidance, work-study programs, and collaboration with vocational colleges (MBOs) and employers. • Retraining in climate and healthcare professions: Free access to retraining in technology, energy transition, healthcare, and education. • Expanding social employment: Doubling the number of sheltered workplaces and social enterprises. • Reducing flexible work: Promoting permanent contracts through social procurement and agreements with employers. • Easing additional income opportunities: More (temporary) opportunities for people on welfare to earn additional income without losing support.

3. Housing Goal: An affordable, sustainable, and livable city for all income groups. Policy points: • More affordable new construction: 40% social housing, 40% mid-range rental/ownership, 20% private sector in new projects. • Protection of existing stock: Stricter rules against speculation, expanding protection against buying back homes, and intensifying Airbnb enforcement. • Accelerating the sustainability of social housing corporations: Insulation, heat pumps, and solar panels; a roadmap for each neighborhood, together with housing corporations. • Combating homelessness: Expanding Housing First, more shelters, and prevention teams to prevent evictions. • Improving housing allocation: Priority for teachers, healthcare workers, and the police in certain segments.

4. Sustainability & Energy Transition Goal: A climate-neutral Amsterdam by 2050, with a fair energy transition. Accessibility: Removing metro line 53? Not with us. We choose accessibility, sustainability, and equal opportunities for all travelers.

ELLECT policy Tiel

1. Social issues Objective: Strengthening social cohesion, increasing financial security, and improving health and opportunities. Policy points: • Tackling poverty and debt: Improved access to minimum income schemes, faster debt relief programs, early detection through care and housing partners. • Youth and families: Strengthening the Center for Youth and Family, more accessible support in neighborhoods, prevention programs in schools. • Health and well-being: Promoting sports, exercise, and nutrition; collaboration with general practitioners, welfare organizations, and neighborhood teams. • Participation and inclusion: Space for neighborhood initiatives, strengthening volunteer work, activities in community centers and libraries.

2. Amenities and accessibility Objective: An accessible, well-connected, and livable municipality with strong basic amenities. Policy points: • Maintaining basic amenities: Protecting and modernizing the library, schools, healthcare facilities, and sports facilities. • Improve accessibility: Improve connections with Rivierenland, further develop the Tiel public transport hub, and make cycling routes safer and more complete. • Accessibility: Make municipal buildings, sidewalks, and bus stops accessible to people with disabilities. • Digital accessibility: Support for digital government and services in libraries and community centers.

3. Space and housing Goal: Livable neighborhoods, sufficient affordable housing, and a future-proof municipal structure. Policy points: • Promote affordable housing: Accelerate housing construction, focusing on starter homes, senior housing, and social housing. • Improve the housing stock: Insulate, improve the sustainability of, and renovate existing homes in older neighborhoods such as Tiel-West. • Livable public spaces: Greening streets and squares, addressing dilapidated areas, and improving play and meeting places. • Sustainable spatial development: Climate adaptation (water retention, heat stress), expansion and preservation of green spaces and nature in and around the city.

4. Economy and employment Goal: A vibrant, future-proof, and local economy with opportunities for residents and entrepreneurs. Policy points: • Local SME support: Space for entrepreneurs in the city center and business parks, reducing regulatory burden, and encouraging retail diversity. • Labor market participation: Collaboration with Werkzaak Rivierenland, apprenticeship programs, and support for job

seekers and refugees with residency permits. • Training and innovation: Stimulating collaboration with regional educational institutions; focus on technology, logistics, and healthcare. • Strengthening the city center: Attracting new shops, pop-up concepts, cultural activities, and modern market functions. 5. Safety and enforcement Goal: A safe and livable municipality with visible enforcement and a preventative approach. Policy points: • Tackling nuisance and crime: Hotspot approach in vulnerable neighborhoods, collaboration with the police and youth work organizations. • Traffic safety: Safe school routes, tackling speeding, improved street lighting, and neighborhood behavioral initiatives. • Enforcement of quality of life: Addressing waste dumping, illegal parking, vandalism, and nuisance in residential areas. • Prevention: Youth work in all neighborhoods, resilience training at schools, and neighborhood mediation for early escalation prevention.
